SUMMARY

Full Stack Developer (MERN) with hands-on internship experience building and deploying production applications, including a headless Shopify storefront and a live B2B platform (NurtureMite). Proficient in React.js, Node.js, Express.js, MongoDB, PostgreSQL, REST APIs, and JWT authentication, with deployment experience across Vercel, Render, VPS, and Hostinger, plus additional exposure to cybersecurity tools (Kali Linux, Nmap, Wireshark, Splunk).

TECHNICAL SKILLS

Languages	JavaScript, Python, Java, SQL, HTML5, CSS3
Frontend	React.js, Redux, HTML, CSS, JavaScript (ES6+), Responsive Web Design
Backend	Node.js, Express.js, FastAPI, REST API Design, JWT Authentication
Databases & ORM	MongoDB, PostgreSQL, Prisma ORM, SQLAlchemy
Tools & Platforms	Git, GitHub, Vercel, Render, VPS Deployment, Hostinger, Shopify Storefront API, Postman
Security Tools	Kali Linux, Nmap, Wireshark, Metasploit, Splunk (SPL)
Core Competencies	Full Stack Development, API Integration, Agile Collaboration, Problem Solving

WORK EXPERIENCE

Full Stack Developer Intern – MegaMinds IT Services April 2026 – Present

- Building responsive, production-grade full-stack applications using React.js, Node.js, Express.js, PostgreSQL, and MongoDB as part of the core development team.
- Developed responsive, cross-browser user interfaces and integrated RESTful APIs with secure JWT-based authentication for client projects.
- Built two full-stack client projects end-to-end using Git/GitHub, with deployments across Vercel, Render, Shopify, VPS, and Hostinger (see below).

Client Project – Headless Shopify E-Commerce Platform [GitHub](#) | [Live Demo](#)

- Built a headless e-commerce storefront using React.js, Shopify Storefront API, Node.js, and Express.js, including product listing, search, cart, authentication, and checkout.
- Integrated the Shopify backend with a custom React storefront and deployed it on Vercel, delivering a fast, seamless shopping experience end-to-end.

Client Project – NurtureMite (B2B Millets & Storytelling Platform) [Live Site](#)

- Collaborated with the designer to implement a full UI redesign, building all screens in React.js from new design specs for a live B2B millets and storytelling platform.
- Expanded the backend with numerous new controllers and models in Node.js/Express.js; deployed and manage the backend on a VPS and the frontend on Hostinger.

Cybersecurity Intern – Supraja Technologies Jun 2025 – Aug 2025

- Gained hands-on experience with cybersecurity tools including Kali Linux, Nmap, Wireshark, and Metasploit, practicing ethical hacking phases in controlled lab environments.
- Executed SPL queries in Splunk for log analysis, event investigation, and security monitoring.

PERSONAL PROJECTS

AI Interview Platform <i>(Ongoing)</i>	AI-powered mock interview platform (React.js, FastAPI, LangChain, ChromaDB) using RAG for resume-driven interviews, JWT auth, and AI feedback.
AI-Enhanced Productivity Dashboard [GitHub]	Manager dashboard for employee tasks and performance metrics (React.js, Node.js, Express.js, PostgreSQL, Prisma).
Log-Based Threat Detection System [GitHub]	Python SIEM app with a log-monitoring dashboard and ML-based anomaly detection for security reporting.

EDUCATION

2022–2026	B.Tech, Artificial Intelligence and Data Science, NBKR Institute of Science and Technology	CGPA: 8.1/10.0
2022	Class 12, Board of Intermediate Education, AP	972/1000

CERTIFICATIONS & ACTIVITIES

- NPTEL Certification – Privacy in Online Social Media | 3-Day Cybersecurity Workshop & 1-Day Hackathon, Supraja Technologies
